## INTERNATIONAL SEARCH REPORT

Interr Application No
PCT/GB2004/004502

			101/402001/004302	
A. CLASSIFICATION OF SUBJECT MATTER IPC 7 A61P35/00				
According to International Patent Classification (IPC) or to both national classification and IPC				
B. FIELDS SEARCHED				
Minimum documentation searched (classification system followed by classification symbols)  IPC 7 A61K				
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched				
Electronic data base consulted during the international search (name of data base and, where practical, search terms used)				
EPO-Internal, BIOSIS, EMBASE, WPI Data, CHEM ABS Data, SCISEARCH				
C. DOCUME	NTS CONSIDERED TO BE RELEVANT			
Category °	Citation of document, with indication, where appropriate, of the relevant	vant passages	Relevant to claim No.	
Ρ,Υ	CONZE TIM ET AL: "CDCP1 IS A NOVEL MARKER  FOR HEMATOPOIETIC STEM CELLS"  ANNALS OF THE NEW YORK ACADEMY OF SCIENCES, NEW YORK ACADEMY OF SCIENCES, NEW YORK, NY, US, vol. 996, 2003, pages 222-226, XP009021998 ISSN: 0077-8923 *cf. abstract, page 225, "Results and Discussion"*  -/			
Further documents are listed in the continuation of box C.				
'A' docume consid 'E' earlier of filing d 'L' docume which i citation 'O' docume other n 'P' docume later th	"T' later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention invention."  "E' earlier document but published on or after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention.  "X' document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified).  "O' document referring to an oral disclosure, use, exhibition or other means."  "P' document published prior to the international filing date but later than the priority date claimed.  "April 2005  "T' later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention.  "X' document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.  "8' document member of the same patent family.  Date of mailing of the International search report.  12/04/2005		d not in conflict with the application but ad the principle or theory underlying the ular relevance; the claimed invention bered novel or cannot be considered to ve step when the document is taken alone ular relevance; the claimed invention bered to involve an inventive step when the olined with one or more other such docuplination being obvious to a person skilled of the same patent family
